

# FIT WORKSHOP TROLLEY AND BATTERY CAPACITY TESTER

## INFORMATION ON THE DELIVERY STATUS AND INITIAL OPERATION

On account of the current delivery bottlenecks for electronic components on the market, deliveries of the FIT battery and capacity tester will be delayed until May. This is why we are sending out the workshop trolley as a part delivery. The battery and capacity tester will be delivered later as quickly as possible.

**Have fun with your new workshop trolley!**

# INITIAL OPERATION OF THE WORKSHOP TROLLEY

## 1. Open the cover

## 2. Take the WiFi aerial out of the box and screw into place

## 3. Take the keyboard with integrated trackpad out of the drawer

## 4. Switch the keyboard on
